

Context and research questions

Dr Doan Xuan Huy Minh

Theory is knowledge that
doesn't work. Practice is
when everything works
and you don't know why.

Hermann Hesse

PICTUREQUOTES . com

Objectives

Understand the significance of research context

Learn how to formulate precise research questions

Apply these concepts through practical exercises

Engage in discussions to refine understanding

*Question
everything*

*Without a question, research has no
focus, drive or purpose*

Research is
an

Organized
and
systematic
way on
finding

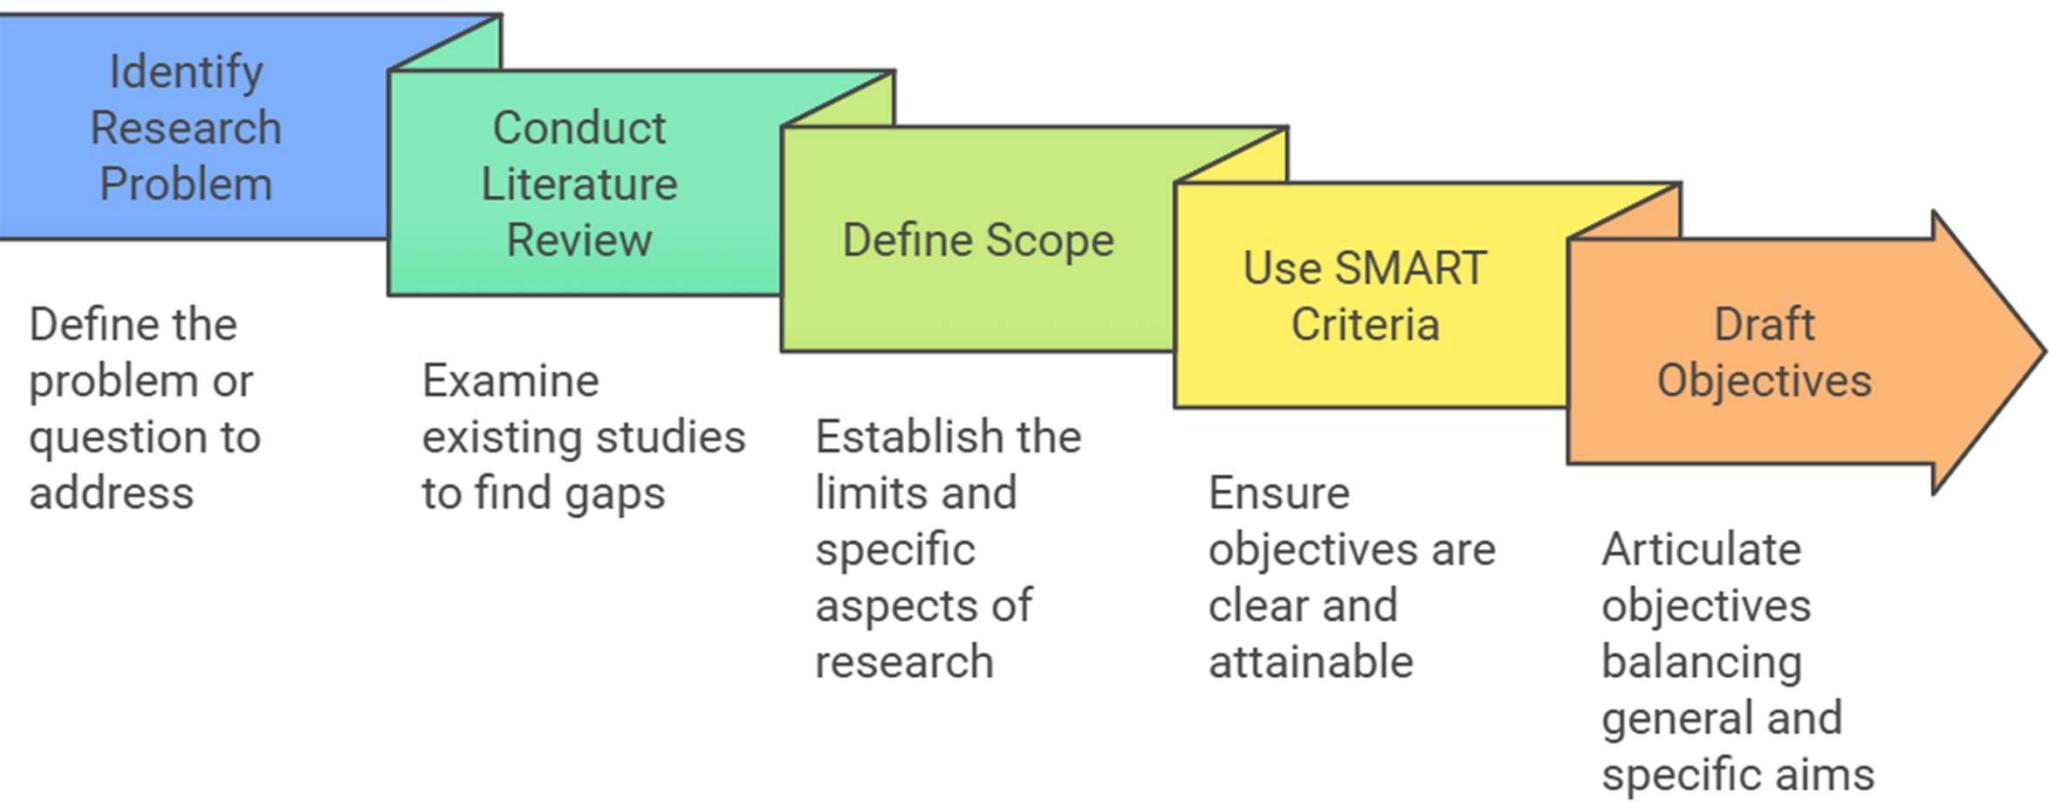

Answers
to
questions

**In order to
solve
Problems**

*It's a matter
of attitude*

*Question everything is a must-do
habit for designers, marketers,
researchers and successful people*

Developing Research Objectives

Phân tích đề cương mẫu

Bối cảnh nghiên cứu

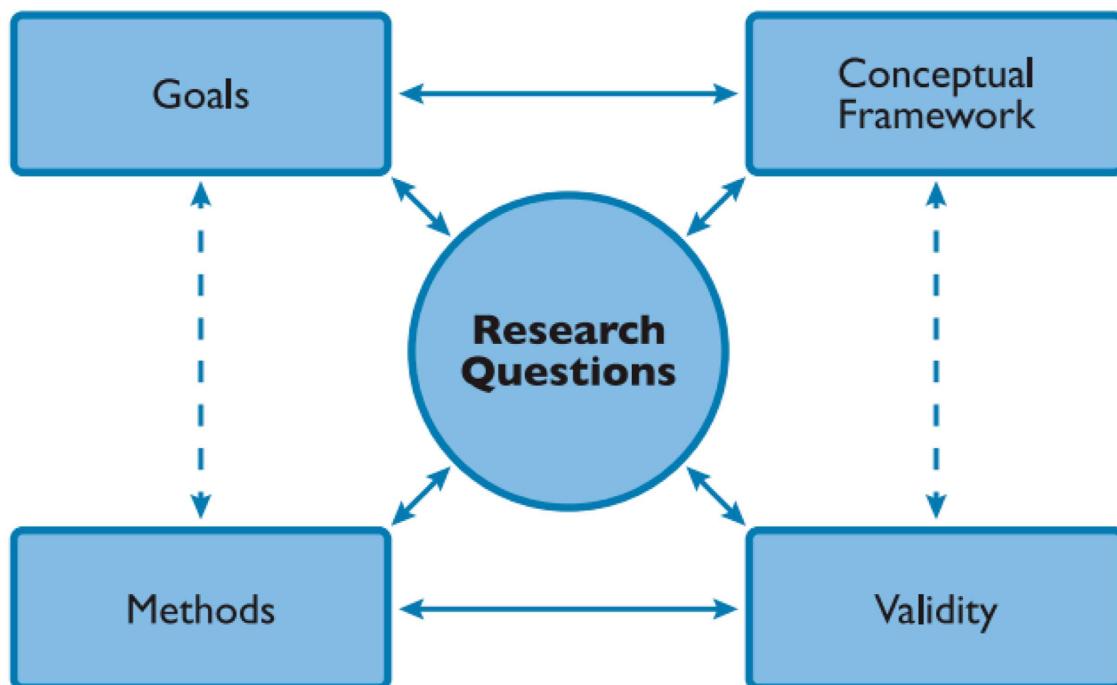

Vấn đề nghiên cứu

Đánh giá tổng quan tài liệu

Đánh giá mục tiêu nghiên cứu

Đánh giá câu hỏi nghiên cứu

Research Objectives / Questions

Main Objective

- ONE major objective

Several specific objectives (2-3)

- To determine...
- To identify...
- To construct...
- To suggest...
- To examine...

Landers, A., Pitama, S. G., Palmer, S. C., & Beckert, L. (2023). Positioning Stakeholder Perspectives in COPD End-of-Life Care Using Critical Theory and Actor-Network Theory: A Methodological Approach. *International Journal of Qualitative Methods*, 22. <https://doi.org/10.1177/16094069231214098>
